

MEMORANDUM

September 4, 1969

TO: The Boston Redevelopment Authority

FROM: John D. Warner, Director

SUBJECT: BOSTON SUMMER PROGRAM - 1969 - Extension of Programs  
and Appointments

On May 7 and May 22, 1969, the Authority approved the Boston Summer Program in six urban renewal areas. Approximately, 200 youths are now completing a highly successful work program.

Participants refurbished, constructed, and maintained temporary recreation facilities and waged neighborhood clean-up campaigns. In the South End, students also did rehabilitation work. The hallways of approximately thirty BRA-owned buildings were painted, creating a more satisfactory living environment for residents. In addition, students aided ten home-owners with HUD 115 rehabilitation grants, thereby freeing grant funds for more costly repairs. One aspect of the program - the cleaning of vacant lots and maintenance of Authority property - proved to be an important adjunct to our property management program.

The employment of project area residents on a part-time basis during the school year provides an excellent means of improving the community, serving project needs, and providing sustained employment for youth from low-income families. The Department of Housing and Urban Development encourages this kind of employment throughout the year.

It is proposed that the Community Improvement Programs in Charlestown, South End, Washington Park, Campus High and South Cove be continued on an hourly basis for four months, employing community aides and supervisors on a regular basis after school.

It is hoped that the summer work program can become a year-round program, employing a limited number of youths from September to May and a full work crew in the summer. The proposed four-month extension is intended to be a trial period which will indicate the budgetary requirements of a year-round program and provide the time needed to develop in depth a proposal for such a program.

Approximately \$40,000 remains from the original appropriation of \$197,500 for the Boston Summer Program. It is estimated that the five Community Improvement Programs can be financed on a limited basis for four months with this surplus.

An appropriate vote and the personnel rosters follow.

Attachments

VOTED: That the Director be, and hereby is, authorized to extend the Charlestown, South End, Campus High, Washington Park, and South Cove Community Improvement Programs for four months, the cost of such extension not to exceed \$40,000, or the amount remaining in the appropriation.
